

## COIN WEEK EXHIBIT

Once again, this year, the High River Centennial Library, High River, Alberta, Canada has joined in the celebration of Coin Week Canada and National Coin Week, to help make the general public aware of the hobby. A seven-case display representing various areas of numismatic interest was on view at the Library from April 14 to 28.

The display was prepared by the well known Canadian numismatist Stanley Clute who, for the past four years, has made his home in High River. Clute is currently First Vice-president of the Canadian Numismatic Association and a District Representative of the American Numismatic Association. He is the Immediate Past President of both the Canadian Association of Wooden Money Collectors and the Calgary Numismatic Society. He also serves on the local library and museum boards and has been a regular columnist for Canadian Coin News for over ten years.

This was the second year in a row that Clute has displayed at the Library for Coin Week. Both years, the displays -- accompanied by suitable newspaper articles -- have attracted considerable local interest. The seven cases of exhibits, this year, dealt with such diverse areas of collecting as Canadian Decimal Coins; Medallions; Paper Money; Wooden Money; Ancient, Mediaeval and Modern Foreign Coins; and Trade Dollars.
